With spring upon us offering updated energies to work with, we are stepping firmly into the New Time. Being called by our Soul, to heal old wounds, and leave behind our old cheap dramas, humanity IS moving closer to the point of ascension.

What is this ascension all about? It is clearing the old fears from the Body to make room for Union with the Divine – while in a body. It's not about leaving for some heavenly abode. It's about being present-as an authentic human being in a 3-D Body filled with Light and Love.

The seven-year stretch of time with the planet Uranus traveling through the sign of Pisces will offer some bizarre events to help us realign ourselves with the Great Unknown. This is an exciting prospect to become a 'liver of life to the fullest' while not knowing what will be asked of us next as we dance with passion in a new way of being.

Hot on the trail to understand ascension, we'll be asked to 'flow' by letting go of outdated beliefs. The shift entails opening to the multi-dimensional aspects of the Truth of who we really are. Mission statements for our lives will come forward from our Souls as we move into more understanding of what Oneness is about. Earth herself is in the process of ascension. We're being asked to go along for the ride with our personal uniqueness and gifts, to help in the making of our ascended world.

It takes an awareness of love of self, so that we may have compassion and love for our fellow travelers. It's about heading for the fusion of Spirit into Matter so that the Soul can work with us and through us to bring into manifest form our vision of a healed humanity. A heady and exciting time to be sure!

The goal is 'Spirit in Body' to bring about the Age of Magic, the time of miracles. Open to all possibilities, we can be footloose and fancy free to dance with the new energies of change and unpredictability. This is an unprecedented time for humanity with the path taking us into the realm of ascended beings – walking the Earth with mastery, holding the Light and Vision of what it is to be a true Human Being. This involves moving into a higher octave of who we are and standing firmly as an instrument of Service to the whole of humanity. Our efforting in self-growth is not just for us anymore – it's for ALL. We are ONE.

The last episode of The Lord of the Rings: The Return of the King, completes the tale of the journey to the point of ascension. Dealing fearlessly with the dark energy of the old way of power over others, we've walked the path of meeting and owning our shadow self. Only love can bring us to the point of realizing we are all in this together and the last challenge is to address the fear of the dark that resides within. After all the adventures and games of the old are stripped away, only then can we step into the Light of the New Time.

By our presence in life as a whole, healed person, we fulfill the requirement of service to Earth and Humanity. Yes, this business of ascension is what we came into being for and the time is Now! *WE* are the ones we have been waiting for!
