Parallel Universes:

We exist simultaneously in seven 'bodies' in thirty-three parallel realities of varying degrees of time and space. Earth is one of those realities in one of twelve known conscious universes, each with their own parallel expressions. Time, being simultaneous not linear, also offers parallel projections that many traditions consider to be parallel selves within parallel realms. We also radiate consciousness into parallel expressions at eleven levels of awareness. As we achieve authenticity (selfless-self), the first level of expansion, Self-realization, allows us to fully know our place within this realm as a Soul in flesh, and as Soul consciousness in the parallel Etheric, Astral & Causal. Each level has its own characteristics that parallel the others to give full meaning to each human life. Jesus, Buddha, Koothumi, Deserkara, Serapis Bay, to name only a few, are aware of their place within all parallel universes and levels of conscious projection simultaneously. This workshop will discuss aspects of the study of parallel universes & what that means for us.

Weaving New Fabric: Truth, Trust and Transformation

We are Gods weaving the fabric of reality. This is **TRUTH!** How do we go beyond current belief systems while every old way of being, knowing and believing is going through radical transformation? Nothing is as it seems as we enter this New Realm with the essential ingredient of **TRUST** - expecting with desire; having confidence in the outcome; allowing change without fear. **TRANSFORMATION** takes place when we accept who we really are ... Spirit having a Human Experience. This workshop brings new insights and experiential exercises for continued joyful exploration in this New Reality forming around us.

Pluto Influences:

There's something about Pluto....! Transformation/change has been the accepted influence of Pluto since its discovery in 1930. Pluto brings to awareness what needs to be destroyed so that a new way can be regenerated in that particular sign of the Zodiac. Presently in Sagittarius, Pluto has been about bringing to conscious awareness our belief systems, especially religion, spirituality, education, transportation, and our philosophy of what life is about. We'll explore the current influence of Pluto in Sagittarius and take a peek into the future as it moves into Capricorn in late 2008. If you have an astrological chart, bring it to the workshop. If not, just bring your birth date! That is enough to help you understand what this intense and powerful planet desired to have you transform through the living of your life.
