## **Carol Pierman: THE ARCHETYPE AND MYTH OF YOUR LIFE**

### **2-day workshop – must register for both days**

The human life is a huge experience, with its own story and journey toward Soul completion. How would you see your own “Fairy Tale” of “Once upon a time”? This workshop will focus on that story and on our relationships, which are part of the magical mirror for us to understand and value our life path. Carol will use a combination of Spiritual, Astrological and Jungian Symbols as tools to assist you in coming to a greater understanding of your life story and present dance with others.

You will need your own astrological birth chart and the chart of one person who has a key relationship in your life. You may also bring the birth charts of additional people in your life if you like. We will cover as much as possible in the time available. A ritual of healing will complete this workshop. Please bring pictures of people in relationship with you in your life, who you feel may benefit from completion and healing as part of the ritual. If you need your own birth chart and/ or the chart for your key relationship person, please email Carol: cpierman20@comcast.net

*Rev. Carol Pierman has been a metaphysical minister of Spiritual Science since 1980. For many years prior to that, she taught yoga, astrology and many metaphysical subjects. Her interests include Qabalah, the Divine Feminine, and ancient world mythologies. As a minister, she does private consultations and creates ceremonies and ritual for weddings and other rites of passage.*

## **Michele Ama Wehali: JOURNEY TO THE FIFTH WORLD: COMING FULL CIRCLE IN HEALING AND TRANSFORMATION**

### **Register for one or both days**

**Saturday: Door of Earth** - We gather in Sacred Circle to gain a deeper understanding of what is being asked at this time for our personal evolution. Prophecies and information on the great Cycle of Transformation will be shared. We will create sacred space to hold a place to re-align our personal Tree of Life and work with the energies of Venus and the Divine Feminine to heal the rift between the two most primal polarities, masculine and feminine, in the Sacred Marriage. Birthing the Magical Child we regain lost gifts, the sacred Manna, necessary to make the paradigm shift of 2012.

**Sunday: Door of Heaven** - We will align with the powerful energies of evolverment, in order that the growth pains of the paradigm shift of 2012 will not be as difficult. There will be teachings on the “13 Heavens” (in Mayan cosmology). Wisdom of the Thirteen Grandmothers in alignment with the Native American prophecies will also be shared, integration of the higher Chakra System, inspiration of the Rainbow Serpent, and a group journey of creating the Fifth World.
